Why choose R32

European Union' Requirement

A2L

Low Flammability
Index

Low GWP

(Global Warming
Potencial

0

Ozone Layer
Depletion

100%

Pure HFC

CO² Emissions

1

Why choose Palm R32

Palm COP 4.87 by EN14511

A+++ energy class by EN14825

Save energy, Protect our earth and Reduce emission.

Character

Heating,
cooling , DHW,
3 in 1

Monobloc
and split type
available

WIFI Android
control.

Inverter
available.

Heating,
cooling , DHW,
3 in 1

WIFI Mobile remote
cloud control.

Weekly timer, 8 setting points.

-----Make your home more comfortable and energy saving.

Second main switch

----- Control the unit from room thermostat

Compatible with different devices

-----Floor heating, radiator, fan coil...

Key component

Key Component

Key component - Compressor

Compressor

Mitsubishi Twin Rotary Compressor for R32

- World Famous brand DC inverter compressor, ensure stable heating capacity Even in -20°C ambient
- It is more reliable in system matching and quiet in operation

Key component — EEV&4-way valve

EEV(electronic expansion valve)

Japanese Saginomiya

Wider working temperature range,
faster and more accurate
refrigerant flow control

4-way valve

Heat and defrost

Key component -Controller

Touch screen

485/IC

5 Languages

Friendly UI

R32

Applications

World advanced auto defrost technology to ensure well working in cold weather with operation range from **-20°C to 52°C for heating**.

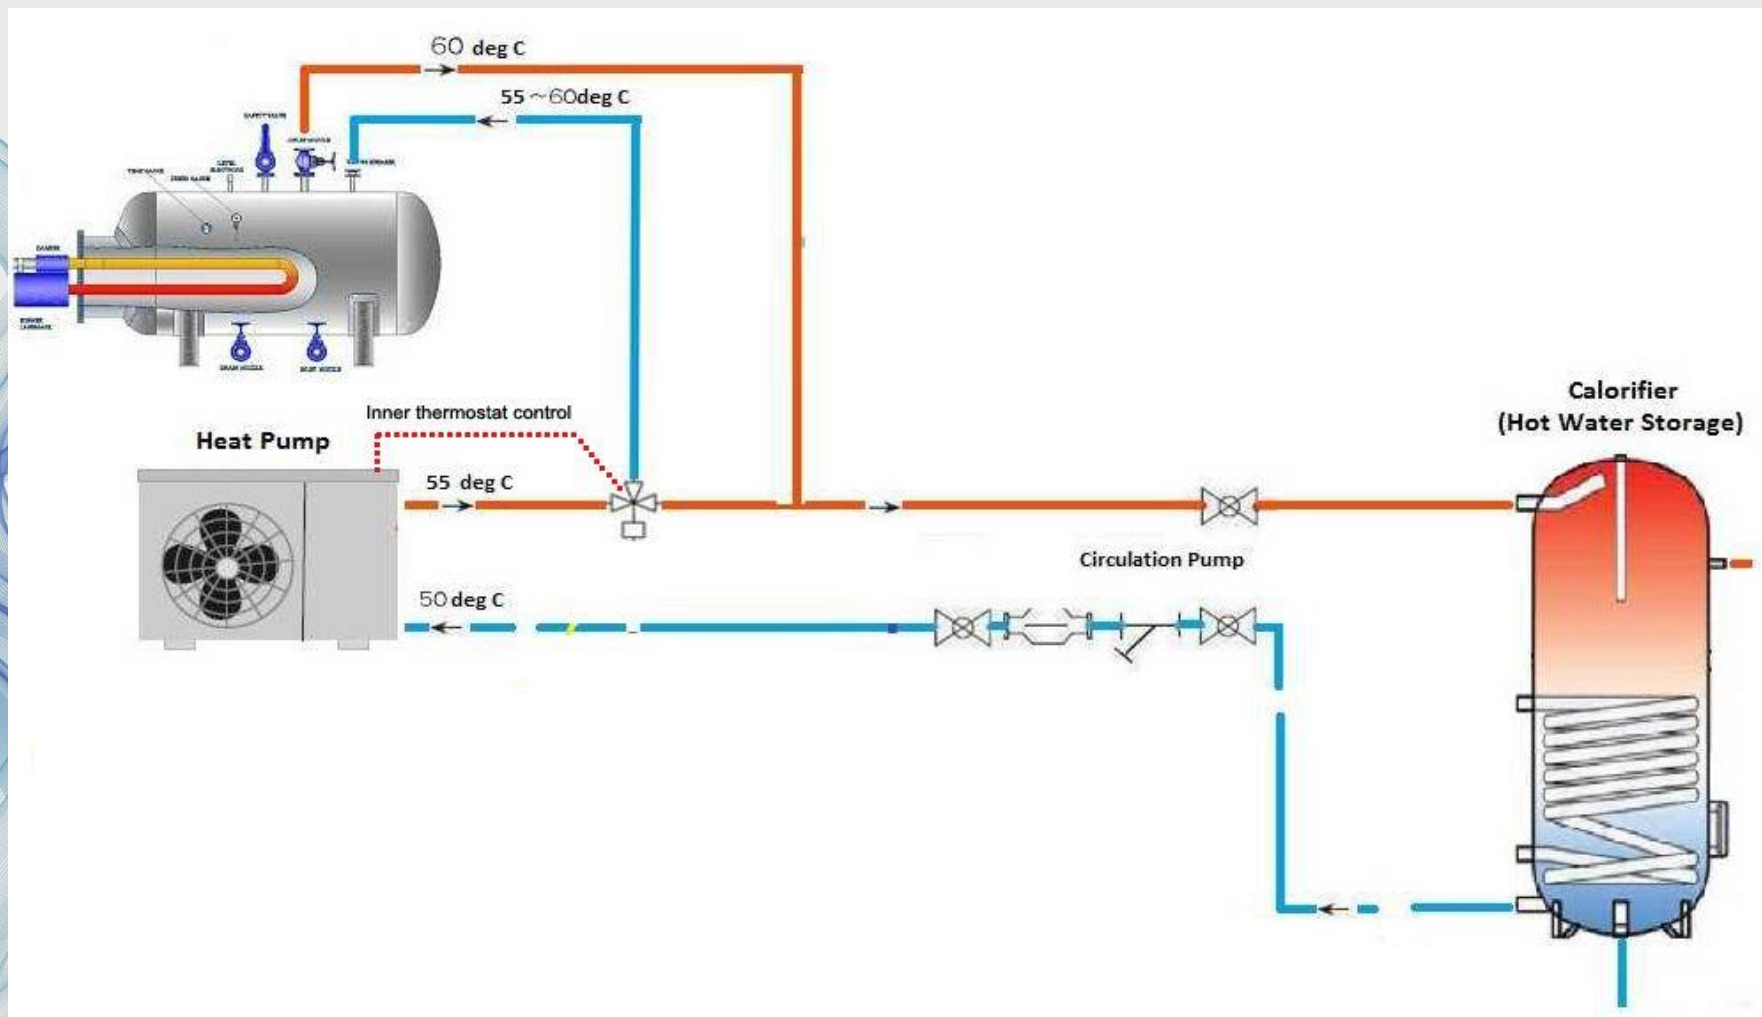

Outdoor air temperature range

	Cooling	Heating	Domestic Hot Water
Maximum	52	30	43
Minimum	15	-20	-20

Leaving water temperature range

	Cooling	Heating	Domestic Hot Water
Maximum	18	60	60
Minimum	5	30	30

Secondary heat source auto switching function with inner thermostat
enable Palm AEO heat pump to Swift automatically between heat pump and backup heat sources

**Application for heating/cooling + DHW in one solution.
With buffer and boiler connection**

Application with solar

Multifunctional heat pump application for solar assist for room heating and DHW

High efficiency team

ISO9001,5S management
system

European,
American
Australia

Big Market

20Years

Established in
2006, more
than 20years
experiences

With original European
heat pump technology

Joint Venture

6 About us—The tech

AC/DC inverter

Advanced **energy-saving heat pumps multifunctional and central heating cooling** products

R410A/R32/R290

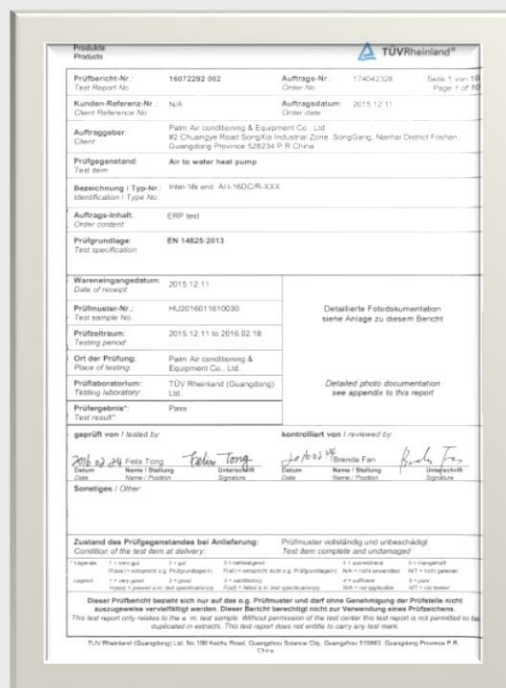

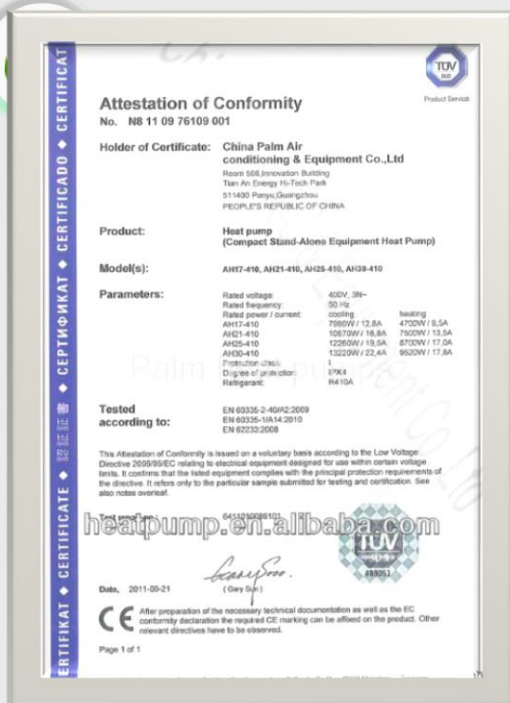

we are developing the tech of R290 refrigerant.

Air, Solar, water, ground

Different resources can be used, related products have been soled

About us
